# ROLDHAN FULO

## About Me

Experienced Web Developer and Quality Assurance with over 3 year of expertise creating user-friendly websites and applications. Skilled in front-end technologies, dedicated to top-notch code quality and exceptional user experiences. Collaborative team player with strong communication skills, eager to learn and stay current with industry trends

## WORK Experience

### WEB DEVELOPER/ QUALITY ASSURANCE

REALBASE (2022-PRESENT)

- Developed and maintained responsive websites
- Collaborated with the design team to implement pixel-perfect UI/UX designs, ensuring a seamless and visually appealing user experience. Conducted thorough testing and debugging to ensure cross-browser compatibility and optimal performance across various devices.

#### Test Execution:

- Perform manual or automated testing to identify defects, bugs, and inconsistencies.

#### Client Support Specialist

- Helped clients by listening carefully to their needs and explaining technical matters in simple, easy-to-understand language.
- Guided users step by step to solve issues quickly and with confidence.
- Built trust by providing clear, friendly support and reliable solutions.
